INNO week

Ibromkhim Abdurakhmonov

Minister of Innovative Development
Republic of Uzbekistan

Today, the economic, social, and political losses caused by the pandemic have once again raised the profile of science, innovation, and the scientific community.

We are interested in the development of innovation not only in Uzbekistan, but all over the world. Therefore, we invite all foreign countries, major investors, international organizations and friends to take an active part in the International Week of Innovative Ideas "InnoWeek-2021".

 A large, stylized logo for 'INNO week'. The word 'INNO' is in a bold, blue, sans-serif font. The letter 'O' is replaced by a green and blue lightbulb icon with a leaf inside. The word 'week' is written in a blue, cursive script font below 'INNO'. The entire logo is set against a light blue world map background.

INNOWEEK - International Week of Innovative Ideas will demonstrate the latest innovations, technologies and products in the field of science, high-technology and innovations, as well as various events in these areas.
